

Operating and Installation Instructions

Universal Frame SR-1002/S-PC

DESCRIPTION

The SR-1002/S-PC is two (2) slot wall mountable desk chassis with two (2) "edge card" connectors that accepts all Meridian Technologies' card units. **Diagnostic card will occupy one slot of the chassis, leaving one slot for communication card.**

See SX-PC data sheet for details.

SpectraSmart™ Diagnostic Option

SpectraSmart™ PC Diagnostic is available SX-PC diagnostic card (sold separately). See SX-PC data sheet for details.

INSTALLATION

The chassis must be installed on a vertical surface to allow maximum ventilation top to bottom of the card units. There are four mounting holes for hardware # 8 (maximum). Two knurled captive screws mount the card in each slot. Power is distributed by a mother PCB in the rear of unit.

POWER SUPPLY

The SR-1002/S-PC is powered by an external switching power supply PS-60 (included). The unit accepts: 9VDC
